# CUTICLE RESTORE CREAM

## UK:

Our Cuticle Restore Cream is a serum created, to restore tired, dry and damaged hair after chemical treatments, by closing the hair cuticles. The cream works to restore and strengthen the hair, and return it to its natural PH-level, leaving the hair shinier, stronger and healthier - and ensuring the optimal results from hairtreatments and conditioners. Apply in wet hair, leave for 5 minutes and rinse out.

## DK:

Vores Cuticle Restore Cream er et serum skabt til at genoplive træt, tørt og skadet hår efter kemiske behandlinger, ved at lukke for hårets skællag. Cremen genopretter og styrker håret og genskaber håret naturlige PH-værdi, hvilket efterlader håret blankere, stærkere og sundere - og sikrer optimale resultater ved brug af hårkure og conditioner. Påfør i vådt hår, lad sidde i 5 minutter og skyl ud.
